IDENTI
MEDICAL DATA SENSING

The benefits of medical inventory management under a single cloud

FUTURE PROOF YOUR MEDICAL INVENTORY MANAGEMENT

There's no shortage of data-collection tools in the healthcare sector, but as more technology is added over time, organizations end up with multiple software systems and siloed data.

MANAGE ALL OF YOUR MEDICAL INVENTORY WITH ONE CLOUD MANAGEMENT SYSTEM

THE BENEFITS OF A 'ONE CLOUD' MANAGEMENT SOLUTION

The IDENTIPLATFORM is powered by AI and machine learning technology.

Find out **FOUR** major advantages of the IDENTI Platform:

1 SUPPORTS MULTIPLE SOLUTIONS

Analyzes data collected from **multiple data sensing tools** across different hospital departments

2 AUTOMATED ITEM IDENTIFICATION & DOCUMENTATION

Quick, automated item identification via a global SKU database.

Accurate documentation, including **full UDI capture**.

3 USEFUL MANAGEMENT INFORMATION

Alerts - Recall and expiry alerts
Metrics - Real time inventory vision
Reports - Inventory & usage reports
Insights - Meaningful planning data
Requisitions - Automatic orders

Data provided depends on the solutions used.

4 INTEGRATION & DATA SHARING

- Easy integration with **ERP, EMR and MMIS**.
- Supports perpetual **Item Master maintenance**.
- Connects to **suppliers' ERPs** for complete transparency & synergy.

The ONLY single-cloud solution

for the management of ALL types of medical inventory

Medical devices & implants

TotalSense

Bulk medical supplies

Kanban & PAR automation tools

Point of care Utilization data

Snap & Go
