

# TOTALSENSE CABINET

A comprehensive solution that fully automates the implant and tissue management system.

**✓** Precise, real-time inventory tracking

**✓** Accurate data capture at point of use

**✓** Connects all stakeholders within the supply chain

## Benefits for Hospitals

- Full ROI at the first year
- Instant notification of item consumption
- Alerts for expiry dates and stock outs
- Eliminates human errors
- Accurate inventory balance – no waste or shortage
- Full visibility over remote inventory at point-of-use

## Benefits for Suppliers

- Full visibility over remote inventory at point-of-use
- Eliminates manual tracking
- Time-to-invoice reduced by 30%
- Inventory always available
- Protect against thefts
- Maintain profitability on non-common but expensive inventory

## TOTALSENSE CABINET | Product Range

### Shelves and Drawers Combined

### Standing Items and Top Shelf

Gastroenterology, angiology, Electrophysiology laboratories, Vascular surgery, neurosurgery

### Shelves

Cardiac Catheterization Laboratories, Orthopedics, Angiology, Electrophysiology Laboratories, Neurosurgery

### Hanging Items

Cardiology, angiology, electrophysiology laboratories

### Drawers and Top Shelf

Spine, orthopedics, sutures

### Long Items and Shelves

Gastroenterology, TAVI

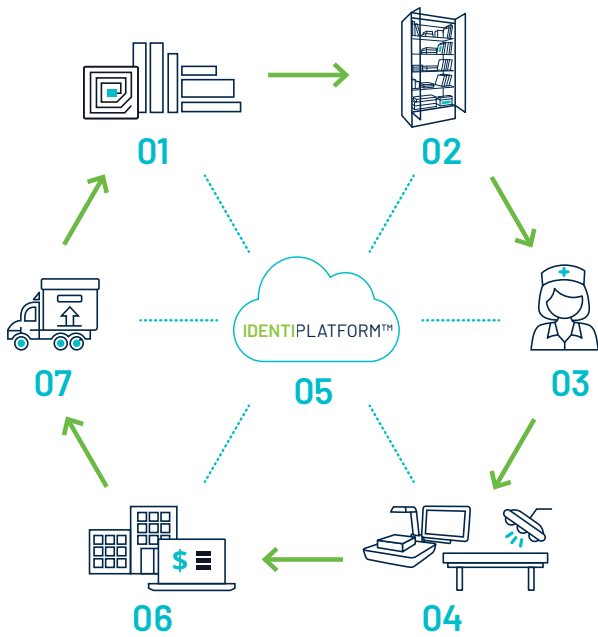

### Mini Cabinets

### Removable Drawers 40x60cm

# TOTALSENSE CABINET | How it works

- 01** Each item is marked with an RFID tag.
- 02** From the moment the item is stored in the Total Sense Cabinet, it tracks all the information of the item – expiration dates, inventory levels, batch no. for recall management, etc.
- 03** The Total Sense Cabinet autonomously tracks each item's remove or return, and by whom.
- 04** Nurse reports all items used.
- 05** Real-time consumption information is now updated and analyzed in IdentiPlatform™ AI management software.
- 06** IdentiPlatform™ drives relevant information to the hospital EHR/ERP and Supplier ERP systems.
- 07** Full consignment is possible with a direct link between manufacturers warehouses and point of use.

## Generate insights using IDENTIPLATFORM™ cloud-web server

- ▶ Advanced AI and machine learning algorithms, supported by a global database of manufacturers' SKUs
- ▶ Full connectivity to all supply chain components and seamless integration with hospital ERP/MMIS systems
- ▶ Complete, real-time data visibility for precise management of all types of inventory

## About IDENTI

IDENTI provides hospitals, medical device manufacturers and international logistics companies with powerful data-capture solutions to create a real-time account of medical inventory and consumption. Its multiple patent-protected technologies revolutionize hospital efficiency, increase patient safety, and lighten the burden on medical staff, ushering in a new user-friendly reality.
